

AIM Act Emissions Reduction and Reclamation Rule¹ Regulated Refrigerants Used in the Supermarket Industry

- The EPA’s Emissions Reduction and Reclamation Rule applies to all HFC refrigerants that are listed in [Appendix A to Part 84](#) and to substitutes for HFC refrigerants with GWPs >53.
- Regulated refrigerants contained in refrigerant blends are also regulated.
- The GWP values used in the AIM Act are not always the same as the 100-year GWP values in the AR4.
